# Over 75 Years Of European Train Expertise & Always On Track.

## See The Real Europe With Rail Europe

Traveling by train enhances your entire European experience: from genuine interactions with locals to relaxing journeys and no wasted time at airports. With quiet gazing through panoramic windows as you're whisked from city-center to city-center. With gourmet dining and no hassles. Is it any wonder trains are so popular? For access to the most choices and best rates, make sure you book in advance. Because a little bit of planning can mean a lot more traveling.

“I think the best thing about taking the train is that there are a lot of people from all over the place traveling on the train and you meet people from different countries and if you talk to them you learn about their culture. I actually made friends with a fellow traveler from Turkey; I never would've done that if I hadn't taken the train.”

– Eling

## Simplicity Is In Our DNA

With 35 different railway systems, it's much easier for the North American traveler to ride the rails than plan their own trip on them. That's why we're here. We offer a unified booking experience across Europe, with the ability to package products from different carriers.

And we have special relationships with carriers that started over 75 years ago. These relationships have led to special agreements benefiting our clients, including technology that enables us to offer and sell more rail travel options than any other provider.

It's simple. With Rail Europe you don't have to sort out the details, we already have.

## Part Of Every Rail Europe View; A Greener Future.

The train brings out our best. It's relaxing. It's serene. It's intimate. It opens us to everything the journey has to offer; the simple pleasures of personally connecting with other people and cultures.

We also believe part of that serenity comes from knowing the train is a low-impact form of travel that preserves the authenticity of the regions and natural beauty we pass through. In fact, high-speed trains are three times as energy efficient as regional trains, but even the slowest train is 25% more energy-efficient than cars.

## Because Some Stops Are Never Expected

The European railroads' policy is that no rail pass or ticket is refundable or replaceable if lost or stolen-but at Rail Europe, we don't believe you can have a great vacation if you can't completely relax. That's why we offer the Rail Protection Plan™. In addition to protecting your rail pass or ticket if it is lost or stolen in Europe, the Rail Protection Plan provides compensation if you should need to cancel or exchange your pass or ticket due to a medical illness or death. It also provides compensation if your trip is interrupted or stopped due to a rail strike. For the complete Rail Protection Plan policy please refer to the "About Us" tab on the raileurope.com home page.
